

Patient: Jane Carp
Date of Birth: Mar 12, 1982
Age: 37y

Provider: Laura Brown
Date: Sep 19, 2019

Diagnosis and Treatment Plan

Diagnosis

- Behaviour Chief Concern Clinical Findings Extra Oral/ Intra Oral
 Historic Treatment Medical Relevance Radiographic Findings

General Concern

- Appearance Health Function Pain

Teeth Related Concern

- Crowding Excess Space Protruding Missing Teeth Other

Gum Related Concern

- Gummy Smile Overgrowth Recession Other

Head and Neck Concern

- Ear Ringing Head Aches Jaw Related Other

Specify Jaw Related Concern

- Dysfunction Noise Pain Prominent Receded Other

Other Concern

Patient Chief Concern Notes

Clinical Findings

- Caries Risk Assessment Dentition Hygiene Molar Relationship Occlusion
 Skeletal Evaluation Soft Tissue Findings TMJ Findings Other

Caries Risk Assessment

- Caries History Demineralization Hypoplasia Orthodontic Appliances
 Plaque and Gingivitis Radiographic Findings

Caries History

- High Risk - Within 1 Year Moderate Risk - Within 2 Years
 Low Risk - None in 2 Years

Demineralization

- High Risk - 2+ Areas Moderate Risk - 1 Area Low Risk - None

Plaque and Gingivitis

- High Risk - Visible Plaque on Anterior Teeth Moderate Risk - Gingivitis
 Low Risk - No Visible Plaque or Gingivitis

Environmental Factors

- Diet Fluoride Socio-Economic Status

Diet Risk Factors

- High Risk - Frequent Exposure of Simple Sugars Between Meals
 Moderate Risk - Occasional Exposure of Simple Sugars Between Meals
 Low Risk - Exposure of Simple Sugars Primarily at Meals

Fluoride Exposure

- High Risk - Suboptimal Topical Fluoride Exposure
 Moderate Risk - Suboptimal Systemic Exposure with Optimal Topical Fluoride Exposure
 Low Risk - Optimal Systemic and Topical Fluoride Exposure

Socio-Economic Status

- High Risk - Low SES (Eligible for Medicaid) Low Risk - High SES
 Moderate Risk - Middle SES (Eligible for School Lunch Program or SCHIP)

Caries Risk

- High Moderate Low

Caries Risk Note

Dentition

- Congenitally Missing Spacing Stage Supernumerary

Spacing

- Crowding Excess Space Insufficient Space

Excess Space

- Generalized Localized

Localized Excess Space - Maxillary

- Maxillary

*Excess Space
- Maxillary*

- Anterior Posterior

Localized Excess Space - Mandibular

- Mandibular

Excess Space - Mandibular

Anterior Posterior

Treatment Plan

- Appliance** **Approach** **Brackets** **Invisalign** **Re-Evaluation Required**
- Referral** **Surgery** **TMJ Therapy** **No Treatment Indicated**

Appliance

- ABP Activator Bionator Bite Plane Crozat Elastics Expander
- Facemask Frankel Habit Appliance Headgear Herbst Lip Bumper
- Neckgear Occlusal Splint Pendulum Quad Helix Retainer
- Space Maintainer Transpalatal Arch

Appliance Notes

[Redacted]

Treatment Approach

- Comprehensive** **Interceptive** **Limited** **Phase**

Treatment Approach Notes

[Redacted]

Invisalign

- An Alternative to Brackets** **In Addition to Brackets**

Invisalign

- Accelerated** **Standard**

Invisalign Notes

[Redacted]

Reevaluation

- 1 Month** **3 Months** **6 Months** **12 Months** **18 Months** **24 Months**
- Other**

TMJ Therapy Notes
