Pain Concerns

- Dyspareunia Flank Pain Orchalgia Pelvic Pain Urethral Pain

Concern Notes

Symptoms

Current Symptoms

Incontinence and Pelvic Floor

LUTS and OAB

Timeline

Incontinence and Pelvic Floor

- Fecal Incontinence Frequency Pad Pattern Prolapse Symptoms
 Type

Fecal Incontinence

- Daily Frequent Occasional None

Frequency

- Daily 4-6 times / week 2-3 times / week Weekly Monthly
 Rare Never

Pad Type

- Adult Diaper Heavy Pad Medium Pad Light Pad None
 Change of Clothes PRN

Number of Pads Daily

- 1 2 3 4 5
 < 5

Pad Wet Level

- Mostly Dry Damp Moderately Wet Heavy Soaked

Pattern

- Day Only Day and Night Night Only

Prolapse Symptoms

- Bulge Heaviness Incomplete Evacuation of Stools Manual Reduction
 Manual Reduction to Void Vaginal Splinting for BM's None

Type

- Mixed Stress and Urge Overflow Stress Total Unaware
 Urge Unspecified

Mixed

- Stress > Urge Stress = Urge Urge > Stress

Timeline

- Dynamics Onset

Dynamics of Symptoms

- Continuous and Stable Episodic Fluctuate in Severity Lessening
 Worsening

Onset of Symptoms

- Insidious Sudden Rapid

History Notes

Examination

Physical Exam

- General and Abdomen** **Genitalia** **Prolapse and Incontinence**

General and Abdomen Examination

- Affect Appearance Auscultation BMI Habitus Hernia Scars
 Palpation Vitals and Biometrics

General Affect

- Agitated Anxious Catotonic Depressed Flat Normal

General Appearance

- Mildly Distressed Moderately Distressed NAD Severely Distressed

Auscultation

- Aortic Bruit Bowel Sounds Iliac Bruit Renal Bruit Normal

Renal Bruit

- Left Right

Abdomen Habitus

- Mildly Obese Moderately Obese Morbidly Obese Scaphoid
 Normal

Hernia

- Incisional Inguinal Umbilical Ventral

Abdominal Palpation

- Mass Rigid Other

Mass

- Left Lower Quadrant Left Upper Quadrant Right Lower Quadrant
 Right Upper Quadrant

Abdominal Scars

- Left/ Right Midline

Midline Scar

- Chevron (Bilateral Subcostal) Full Laparoscopy Sites Lower
 Sub-Umbilical Upper

General and Abdomen Examination Notes

Genitalia Examination

- Atrophy Bartholin's Cyst Mass Prolaps Skin Urethra

Genital Atrophy

Mild Moderate Severe

Bartholin's Cyst

Left Right

Skin Findings

Condyloma Herpes Lichen Sclerosis Sebaceous Cyst

Urethra Findings

Caruncle Periurethral Cyst Mass Prolapse Skene's Glands Other
 Urethral Diverticulum

Urethral Caruncle

Small Medium Large
